FUTURE LEADERS PROGRAM

Future Leaders is a Workforce Readiness program focused on empowering all young people to pursue their passions and dreams in desired careers through career exploration. The program promotes growth opportunities to instill the skills needed for future success in the workforce.

JUST FOR TEENS

Future Leaders is a program designed for Club Members between the ages of 14-18 years. It is a practical small-group program that assists teens in exploring both a career in youth development or other human services from their day-to-day work as a youth staff member, as well as career exploration into various other industries and developing the skills needed to be successful in the workforce.

The program will provide members with age-appropriate skill-building opportunities from their hands-on Club work experience in four areas as well: career development, apprenticeship, customer service, and community service.

PROGRAM BENEFITS

CAREER EXPLORATION & NETWORKING

Connect with local businesses and top-level companies for exciting days of hands-on tours and activities. Future Leader participants have the chance to participate in on-site visits for tours, interact with employees, from management to operations, and even secure future employment!

DISCOVERING YOUR PASSION

The Future Leaders program exposes teens to a diverse range of career opportunities, from trade-level and beyond. Career partners are categorized by industry and provide participants with insightful looks into daily operations, educational requirements, training opportunities, and salary ranges.

In collaboration with our Collegiate and Corporate Partners across Pinellas County, participants of the Future Leaders Program experience college tours, soft skills workshops, direct working experience, and field trips to explore different areas of interests within these industries.

We are so thankful for the collaboration with partners on a local level from our Pilot Program, GenGrind, to our current initiative, Future Leaders.

WHERE SCHOLARS FIND PRIDE & CONFIDENCE

COOKING CLUB

The Cooking Club at Pinellas High Innovation is sponsored through the Boys and Girls Club of the Suncoast and dedicated to providing our students with the practical life skill of creating food in an environment that encourages the students to work together to create a simple, healthy and tasty meal.

LIFEHUB - CLASS SUPPORT

Students may be invited to participate in Lifehub, a sponsored program that rewards students financially for the completion of modules and projects that encourage exploration into financial literacy, career investigation, development of workplace skills, and finding and applying for jobs.

WORKFORCE READINESS

Develop broad employment readiness skills including finding and applying for a job as well as resume and interview preparation!
